The Washington Post Endorses Ilryong Moon

“He deserves to be reelected. On the board since 1995, Mr. Moon is a thoughtful member who does his homework. His experience in picking the two previous superintendents will be useful to the new board...”

October 22, 2011

As a first generation American who started by taking ESL classes and went on to attend Harvard and William and Mary, Ilryong understands the challenges that Fairfax students face. He’s the proud father of two Fairfax Schools graduates and the husband of an FCPS employee.
